

2014 Annual Report of the Civic Association

Villa Vallila

Civic Association Villa Vallila was founded in 1996.

**It runs a community house Villa Vallila
in Červený Újezd near Votice since 2001**

„If we want to help to people with mental disabilities to grow and become more or less independent, it is necessary not only to ,do something‘ but also to , live with them‘. Only through an everyday life in a community and through love which should be manifested there, a man with a disability slowly starts finding his value, knowing that he is loved and therefore love worthy.“

Jean Vanier, founder of L'Arche

Foreword

Every year I think about what to write about the life in Villa Vallila... So – this year it is already 14 years since the house Villa Vallila in Červený Újezd came back into life and since then it is a lively place. The Villa lives with people, events, plans and their realization, meetings, neverending fundraising and effort of all, who participate on its life.

I would like to mention following important points at the beginning:

- ♦ The association still provides social services **protected housing and respite service**. We started preparation of a new service – **social-therapeutic workshop** – in autumn.
- ♦ The inhabitants together with the assistants and association members create a viable community, which still evolves. Regular **community weekends** which strengthen the community in developing a taste for commune good and meaningful life are organized.
- ♦ **Reconstruction of the facade** of the house was finished thanks to a construction company Status and to an effort and patience of all, who prepared the project and who live in the house. New facade was finished in July, after two years of work. It was celebrated during a garden party in the end of August.
- ♦ We met the **coordinator Barbara Pestka of L'Arche (founded by Jean Vanier)** twice during last year. She guides us in our effort to join the international movement and provides us important stimuli. The communities of L'Arche celebrated **50th anniversary of foundation of the first**

community in Trosly in France. As a specific celebration in a country, in which a community of L'Arche has not been founded yet, we organized a weekend meeting of L'Arche sympathizers and members of foreign communities in the Villa. We still hope that L'Arche International will invite us as a member one day.

- ♦ **A nice garden** surrounding the house provides a lot of opportunities for **work, rest and leisure activities**; it is a real therapeutic place. So we mow, make hay, rake, feed, plant, weed, water, harvest, cut, dig, build, play, enjoy the sauna, sit, walk, talk there...
- ♦ **A team of assistants** is capable and cooperative under the supervision of the competent house leader. Maruška, a new assistant, joined the team this year and Ben rejoined the team for a part-time job.
- ♦ **Volunteers and association board members** help with administrative work, take care of web pages and lead the association. Volunteers regularly contribute to the community life, groups of volunteers come to the villa for voluntary work.

We are grateful for the past year in Villa Vallila.

Eva Klířová, chairwoman of the association

People in Villa Vallila

Inhabitants of the community house (recipients of the protected housing service)

Those are people with a mild form of mental impairment, who cannot live on their own because of their adaptability problems, live in the long term in the community house and in nearby efficiency apartments. Some of them have a domicile there. They can live common lives like others with a targeted support. Each of them is involved into a work program within the social therapeutic workshop or therapeutic working programs (care for animals in the farm, work in the vegetable garden or in the greenhouse, maintenance of the surrounding of the house and the garden, work with wood). Some have standard employment. All of them participate according to their abilities and will on household operation. They are led to build up working habits, and good daily regime. Attention is paid to meaningful spending their spare time.

Community

Provision of the protected housing supports creation of a community of inhabitants and their assistants. The community members experience their common troubles and joys, learn mutual help, respect, patience, solving problems and adequate responses. They discover together important life values and individual gifts and learn mutual respect and honor. Most of them have to get over basic adversities still, as their mental and physical injuries are deep and make difficult to live contentedly and joyfully. Regular community sessions, individual talks or consultations with a psychologist are a part of the community life as well as community weekends. Everyone is supported to tell others his or her opinions, learns to listen to others and to seek solutions for the common or personal problems. All together learn to seek and use their own abilities, appreciate each other, and believe in their own value.

Number of inhabitants – 9 (total capacity 10)

Recipients of the respite services

Those are mostly young people often with a serious health handicap (after car accidents, injuries and during long-term diseases). They come to the Villa mainly for

relaxation or recondition programs. They have a possibility to join the life of the community, involve themselves into the regular activities and therapeutic programs. They bring to the community their own life stories and the inhabitants of the Villa can share their destiny. Usually, bonds are made during this time and besides common activities, their stay might be very enriching. Many of them return to the Villa within respite service program.

Number of recipients of the respite services: 35 (there are 3 permanent places for respite service; however, many of them come for respite service repeatedly several times a year).

Assistants (employees in social services)

They work year-round in the Villa. The assistants accompany the clients during their everyday activities, support their working abilities, and serve as an example in the lifestyle and social behavior. They support clients in their healthcare, hygiene, care for their living place, help them to keep the household and to cook. They also help to arrange their civic affairs. The assistants are in daily contact with clients, guide them in healthy regime, motivate them to reasonable spending of their time and support them in their problems and decision making. They are strongly involved in the community life – they take part in various festivities and events also above the frame of their working hours and working duties.

Regular meetings

Community sessions of the clients and assistants, once in a week

Team consultation of the Villa's employees, once in a month

Advisory board of the association – audit committee

Members of the advisory board and of the audit committee participate on association guidance by analyzing the activities and management. Their help in decision making and steering of the association activities, support development programs for social

services, participate on presentation events (concerts, festivities), help with web pages, PR and fundraising

Board and committee meetings are organized regularly in the office in Prague monthly or bimonthly.

All members of the advisory board and of the audit committee work for the association as volunteers.
